**Visit the Netherlands!**  
Increase your knowledge of the worldwide renowned  
Dutch health system and related solutions

# International Visitors Programme

**26 - 29 September 2017**

A 3-day programme

For decision-makers in international, national, regional and local healthcare

# International Visitors Programme

**The International Visitors Programme allows decision-makers in healthcare to visit and share knowledge with health stakeholders in the Netherlands.**

**Visitors enjoy the opportunity to meet fellow professionals who share the same passion and face similar challenges in healthcare. Compare policies and procedures, structures, solutions and opportunities for partnerships to foster improvement.**

## Why join?

Increase your knowledge of the Dutch worldwide renowned health system and related healthcare solutions. For four consecutive years the Netherlands has been chosen as the number 1 country for its excellent health system within the Euro Health Consumer Index.

## Who can participate?

Decision-makers in international, national, regional and local healthcare who want to learn more about healthcare in the Netherlands and related solutions.

## Good to know?

- Programme will be in English
- Tickets are non-refundable

End of Programme

Network Lunch  
*with Dutch Health Experts*

Task Force Health Care (TFHC) is a public-private network for the Dutch Life Sciences & Health sector. Within the TFHC network industry, knowledge institutes, NGO's, health providers and government join forces with the aim to internationally improve healthcare together.

In the last two decades, the TFHC visited and maintained relationships with more than 30 countries. With the use of country platforms, the TFHC continues to build and maintain sustainable international relations.

The World of Health Care (WoHC) is one of the largest and most inspiring 'congresstivals' in the Netherlands. Over 500 Dutch and international Life Sciences & Health organisations from business, civil society, knowledge institutions and government will attend the event.

The main goal of WoHC is to network, to share knowledge and be inspired.

As a visitor you will learn about global and local health trends, challenges and opportunities in an interactive manner.

The Dutch Life Sciences & Health (LSH) sector is one of nine 'Top Sectors' in the Netherlands. The top sectors are designated by the Dutch Ministry of Economic Affairs and are selected on their ability to contribute substantially to global societal challenges. Health~Holland is the top sector's communication channel.

The top sector LSH initiates and stimulates multidisciplinary public private partnership (PPP) to valorise innovation. By attracting financial means, sharing best practices and the univocal Health~Holland sector communication, the top sector boosts a productive innovative infrastructure.
